### **MESSAGE FROM THE CHISHOLM FIRE DEPT.**

#### **Ontario Fire Code Update:**

#### **Expanded Carbon Monoxide Alarm Requirements**

Effective January 1, 2026, updates to the Ontario Fire Code have expanded carbon monoxide (CO) alarm requirements. CO alarms are now required on every storey of a home, not just near sleeping areas. This change improves early detection and enhances overall household safety.

Often referred to as the "silent killer," carbon monoxide is a colourless, odourless gas produced by the incomplete combustion of fuels, including propane and natural gas, oil, and wood. Common sources include furnaces, stoves and ovens, gas-powered water heaters, clothes dryers, wood stoves, and — if your home has an attached garage — vehicle exhaust.

To ensure your alarms are functioning properly:

Test alarms once a month by pressing and holding the Test/Reset button until you hear a loud alarm pattern (typically four beeps, a pause, then four beeps).

After testing, the alarm should return to monitoring mode.

If the alarm does not sound, replace the batteries, clean the unit, and if it still fails, replace the alarm entirely.

When purchasing a carbon monoxide alarm, look for approved certification marks such as CSA, ULC, or ETL. These marks confirm the device has been independently tested and meets national safety and performance standards.

When replacing smoke alarms, opt for combination smoke/CO alarms as a convenient way to upgrade protection.

For more information, call the Township Office at (705) 724-3526. Ask for Fire Prevention Officer Kathleen Palmieri, or Fire Chief Ray Ford.

Thank you for your cooperation in helping us protect you and your family.

MESSAGE FROM THE CHISHOLM FIRE DEPT.  
GOT A SNOW DAY? MAKE YOUR 72 HOUR KIT

Snow days – when you are stuck at home with the kids because the buses are not running – are a perfect time to assemble your 72-hour home emergency kit. Plus, you can get the little ones to help, and reassure them that no matter what happens, you have a plan.

The kit should contain at least three days of supplies, in case there is a serious disruption like an ice storm or wildfire, heavy blizzard or tornado. As a bonus, you can put together a “go-bag”, in the case the emergency requires you to leave home.

First, get the kids to help with the essentials:

- food (non-perishable and easy-to-prepare items, enough for three days) and a manual can opener
- bottled or bagged water (4 litres per person for each day) and backup water purification tablets
- medication(s)
- toilet paper and other personal items such as soap, shampoo, toothbrush, toothpaste, etc.
- back up chargers and power banks for cell phone or mobile device
- cash
- portable light source such as a flashlight, headlamp or glow stick
- radio (crank or battery)
- extra batteries
- first-aid kit
- candles and matches/lighter
- hand sanitizer or moist towelettes
- important papers such as a copy of your emergency plan, identification, contact lists, copies of prescriptions, etc.
- extra car keys and house keys
- whistle (to attract attention, if needed)
- zip-lock bag (to keep things dry)
- garbage bags and duct tape

Then consider extra items you might need:

- items for babies and small children such as diapers, formula, bottles, baby food, etc.
- comfort and sentimental items such as photos of loved ones, irreplaceable items, etc.
- prescription medication
- medical supplies, equipment and copies of care/support plans including contact information for doctors or specialists
- extra pair of glasses or contact lenses and solution (if applicable)
- pet supplies
- any other items specific to your household's needs

Even if it is not a school day, it is always a good time to learn, and a key lesson is that having a plan always beats having no plan.
